

YOU BET HORSE RACING IS FUN!

Evergreen Park features off-track horse race betting – screens showing races from around the world in the Pines Restaurant & Casino – and live pari-mutuel horse racing on the Evergreen Park track at Gordon Badger Stadium in the summer months.

Year-round you can visit the Pines and bet on the ponies. There are race sheets available for all of the races shown on the screens and two betting machines in the facility. The Pines is open 10 a.m. to 1 a.m. daily.

How to Place a Wager on a Horse Race

Betting on horse racing isn't a complicated procedure. Most often, you place your bet, take your ticket, and tear it up when your bet doesn't pay off. However, if you're lucky — or skilled — you get to take your ticket back to the window and collect your winnings. The following list spells out the betting procedure step by step. (For off-track betting you fill in the information at the betting station and for live racing you would walk up to one of the manned betting windows in the Gordon Badger Stadium):

1. State the name of the racetrack.
2. State what number race you're betting.
3. State the dollar unit of your bet.
4. State the type of wager. You can bet on a single horse to win, place, or show or on a combination of horses.
5. State the number of the horse or horses you're using.
6. Check your ticket before you leave the betting station or window.

Betting Tools You Need at the Horse Races

For the outdoor summer races along with your sunscreen (or umbrella!), a few items come in very handy when you're at the racetrack betting on horses. You may want binoculars to see your favorite pass the finish line, but the tools in the following list are even more useful when it comes to actually placing your bets:

- **Racetrack program:** Like a program at a baseball game, it has information on all the players. In this case, the players are the horses, jockeys, trainers, and owners. Cost is normally \$2 or \$3.
- **Public handicapper selections:** For the summer racing program at Evergreen Park Jay Black At The Track is the handicapper. His selections are on the Evergreen Park website before each day of racing. For the off-track betting there is no local handicapper.

Odds with \$2 Minimum Payoff for Horse Racing

You're betting on horse races and want to know how much your winning bet will give you. To compute your \$2 win price, take the odds of your horse and multiply the first number by 2, divide that by the second number, and then add \$2 — simple as that! Following is a list of payoffs at various odds for quick reference:

Odds	\$2 Payoff	Odds	\$2 Payoff	Odds	\$2 Payoff
1/9	\$2.20	8/5	\$5.20	7/1	\$16.00
1/5	\$2.40	9/5	\$5.60	8/1	\$18.00
2/5	\$2.80	2/1	\$6.00	9/1	\$20.00
1/2	\$3.00	5/2	\$7.00	10/1	\$22.00
3/5	\$3.20	3/1	\$8.00	11/1	\$24.00
4/5	\$3.60	7/2	\$9.00	12/1	\$26.00
1/1	\$4.00	4/1	\$10.00	13/1	\$28.00
6/5	\$4.40	9/2	\$11.00	14/1	\$30.00
7/5	\$4.80	5/1	\$12.00	15/1	\$32.00
3/2	\$5.00	6/1	\$14.00	16/1	\$34.00

How to Make a Show Parlay Bet on Horse Races

Are you with a group of friends betting on the horses? A fun way to bet on horse races that gets everyone in your party involved is a group show parlay. It works like this: Have each person ante up \$5, and pool the money. Each person in the group picks one race and one horse to bet to show. Place the first bet, and if you win, parlay the money on the next race and horse. Your winnings can add up very quickly. For example, if four people start with \$20 and each person wins a \$3 show price, you'll have \$101 after only four races!

Helpful Facts for Betting on Horse Racing

When you're at the track betting on horse races, you're looking to put yourself in the best position for winning, right? Of course you are, and the facts and stats in the following list can help you better your odds:

- For summer racing Evergreen Park has commentator who handicaps between the races. Listen and see if you can pick up any good tips to bet on.
- The top 10 riders in the jockey standings win about 90 percent of the races run during the meet.
- Favorite horses win about 33 percent of the time, although at low payoffs.
- The morning line isn't who the racetrack oddsmaker likes in the race. It's his prediction of how the public will bet the race. A no-brainer method of betting overlays is to play a couple bucks on horses going off at odds two to three times higher than its morning line.

Types of Horse Racing Wagers (and Your Chances of Winning)

When it comes to betting on horse races, before you even place a bet on a horse you need to decide what type of bet to place. As the bets you can make range from a simple bet on a single horse in one race to choosing the winning horses for six consecutive races, you may need to the information in the following table to help you explore your betting options:

Bet Type	Your Chances of Winning	Explanation and Expectation	Suggested Plays (Based upon a \$100 Bankroll)
Show	Very good	Your horse must finish 1st, 2nd, or 3rd; modest payoffs	\$6 per horse
Place	Good	Your horse must finish 1st or 2nd; payoffs better than to show	\$5 per horse
Win	Average	Your horse must finish 1st; payoff determined by the win odds	\$4 per horse
Quinella	Average	Your horses must finish 1st and 2nd in either order; a normal play is to box three horses	\$2 quinella box using three horses costs \$6
Exacta	Hard	Your horses must finish 1st and 2nd in exact order; riskier bet that can pay a little or a lot, depending on the horses' odds	\$1 exacta box using three horses costs \$6; \$1 exacta box keying one horse with three horses costs \$6
Trifecta	Very hard	Your horses must finish 1st, 2nd, and 3rd in exact order; can be expensive to play if you use a lot of horses	\$1 trifecta keying one horse to win over three horses costs \$6; \$1 trifecta keying two horses to win over four horses costs \$12
Superfecta	Extremely hard	Your horses must finish 1st, 2nd, 3rd, and 4th; hard to bet unless you have a sizeable bankroll; big payoff possible	\$1 superfecta keying one horse to win over four horses costs \$24
Daily Double	Hard	Your horses must win the two consecutive races; chance for a nice payoff with mid-priced horses	\$2 daily double using two horses in each race costs \$8; \$2 daily double keying one horse to three horses costs \$6
Pick 3	Very hard	Your horses must win three consecutive races; it's a daily double plus another race; \$1 unit makes it affordable	\$1 pick 3 using two horses in each race costs \$8; \$1 pick 3 keying one horse with three horses in two other races costs \$9
Pick 4	Extremely hard	Your horses must win four consecutive races; chance for a big score for a modest amount	\$1 pick 4 using two horses in each race costs \$16
Pick 6	Thinking man's lottery	Your horses must win six consecutive races; very expensive to play; huge payoffs possible; a home run bet	\$2 pick 6 using three singles with two horses each in the other three races costs \$16
